Northwest Airlines Stratocruisers *Coast To Coast... Hawaii... Alaska... Orient*

POST NWA CARD

Please address, stamp, and return to stewardess who will mail for you.

The World's fastest and most modern airliners . . . Northwest Airlines' 75-Passenger double-deck Boeing Stratocruisers. Maximum cruising speed exceeds 340 miles per hour. The four great Wasp Major engines can generate 14,000 horsepower; and maximum cruising range exceeds 5,800 miles. Spiral stairways, lower deck lounges, large dressing rooms, altitude-conditioned cabins, and many other luxury features distinguish these modern giants of the skies.
